Partnership in Action for Results: Measuring and Monitoring Sharjah's Specific Sustainable Development Goals

Presented by: Naama Nasir AlAboodi
Department of Statistics and Community Development, Sharjah
IAOS 2016

Contents

1. Purpose of the paper
2. Sheikh Sultan's vision & SDGs
3. The DSCD
4. Data-user and data-producer dialogue
5. Better data for better life
6. Results-based Management
 - Partnership
 - Learning Cycle
7. Challenges

Purpose of the Paper

Statistics

Development

**“We should not pursue advancement of
today at the cost of tomorrow.”**

– H.H. Sheikh Dr. Sultan Bin Muhammad Al Qasimi,
Member of Supreme Council and Ruler of Sharjah.

H.H. Sheikh Dr. Sultan Al Qasimi's Vision

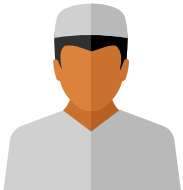

Development Vision for the Emirate of Sharjah:

❖ Human Rights approach

❖ Sharjah Census 2015

❖ Six socially marginalized categories

Sustainable Development Goals

SUSTAINABLE DEVELOPMENT GOALS

17 GOALS TO TRANSFORM OUR WORLD

Resolution 70/1

<https://sustainabledevelopment.un.org/sdgs>

Vision

Data

Sustainable
Development
Goals

Department of Statistics and Community Development

Law (4), 2014 emphasizes data-user and data-producer dialogue as well as partnership:

- **Article 4.1:** Formulate social development strategies in cooperation with other governmental and non-governmental entities and the private sector.
- **Article 4.4:** Monitoring changes in population groups.
- **Article 5.3:** Gather and analyze data with the cooperation of other governmental entities (**Partnership**).

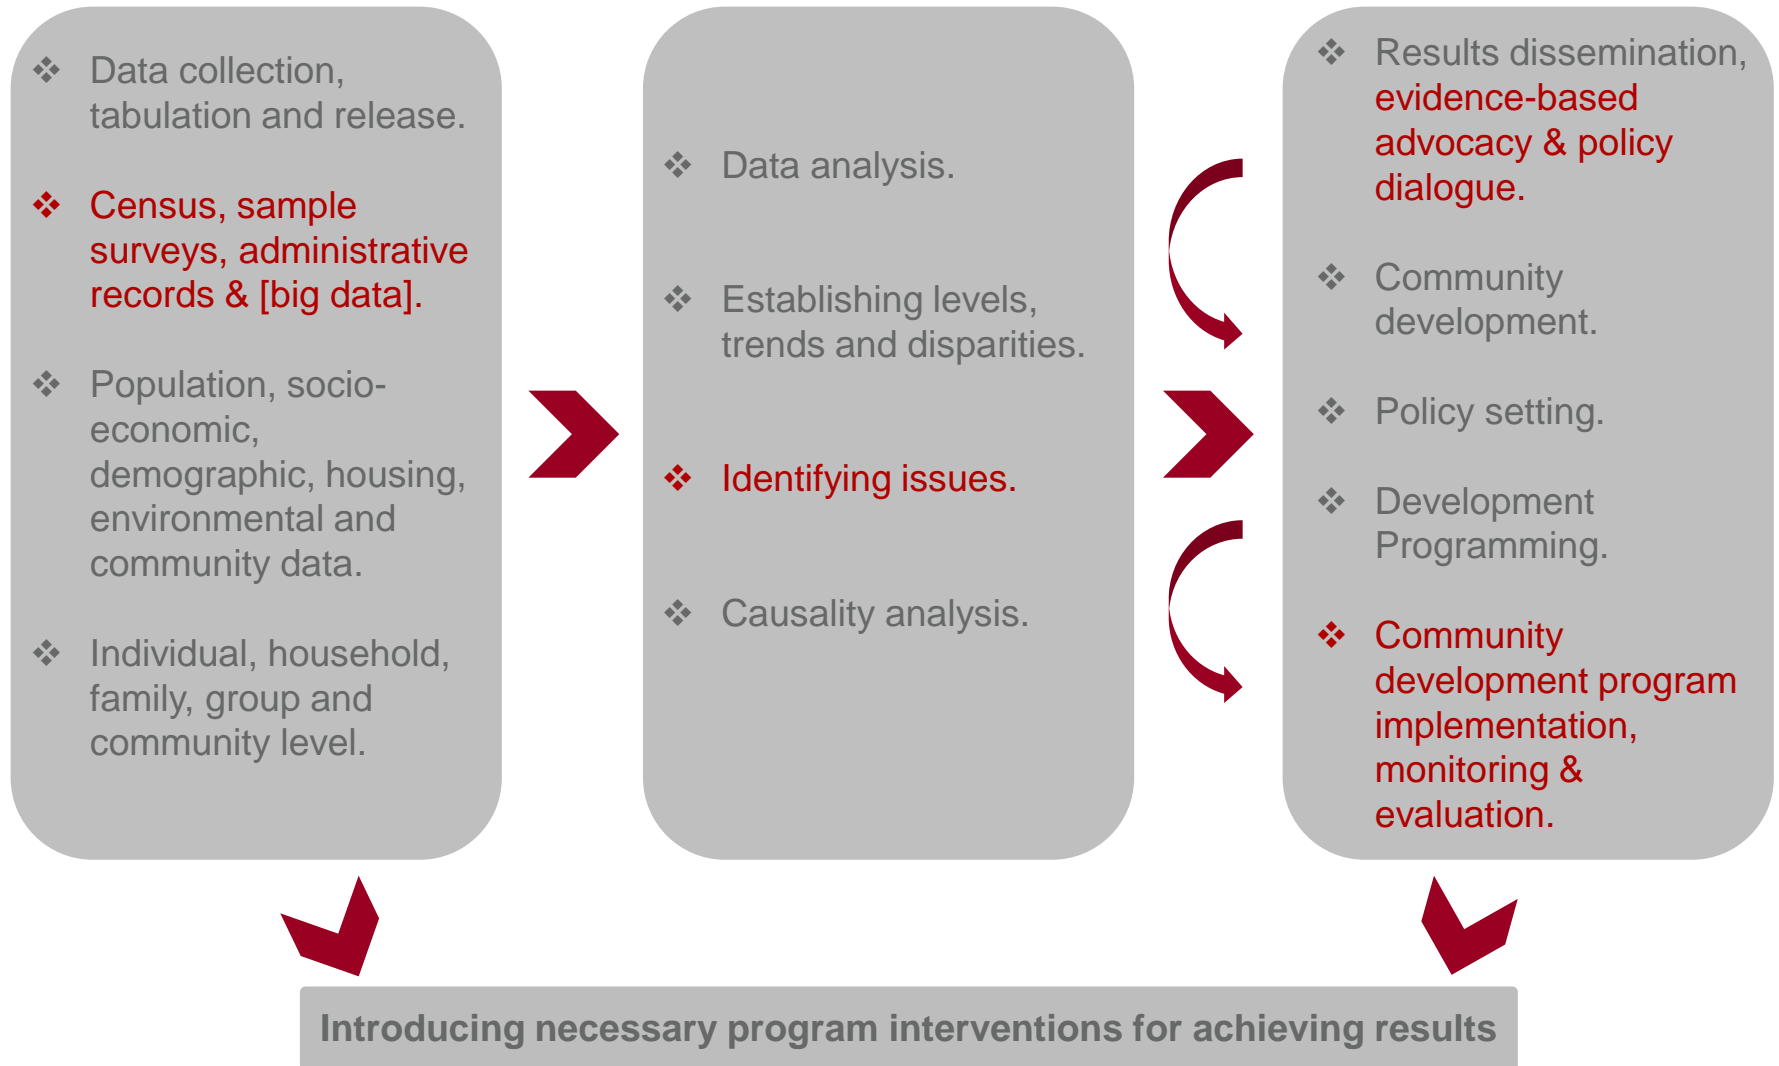

Department of Statistics and Community Development

The roles of the DSCD:

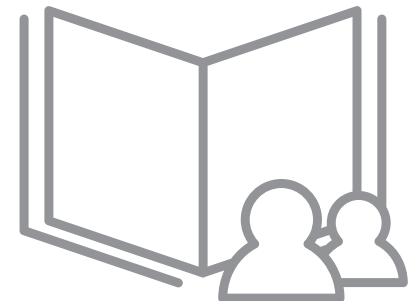

1. To collect **quality**, disaggregated information in respect to development goals;
2. To establish current levels, **disparities** and future projections (trends);
3. To **analyse** the data using causality analysis;
4. To establish a valid Community Development Strategy;
5. Monitoring, evaluation, and impact assessment.

Data Collection, Utilization and Strategizing

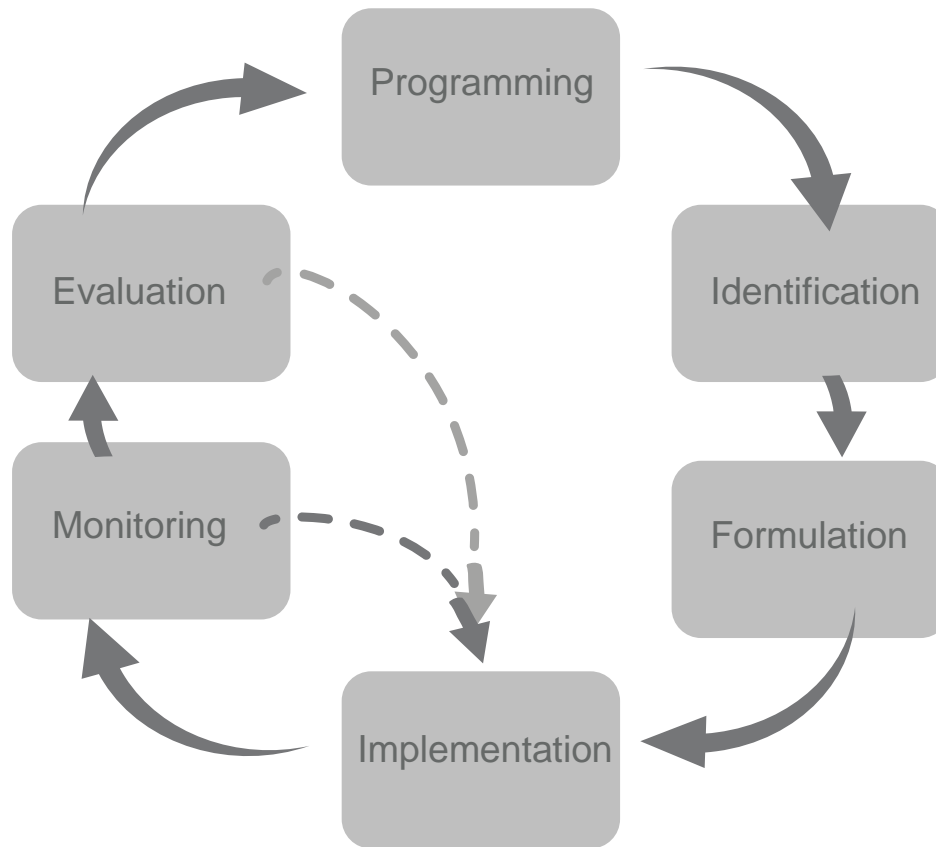

**After collecting statistics and analyzing them,
how do we materialise a Community Development
Strategy?**

Results-based Management (RBM)

Starting backwards: Project Management Cycle

Partnership: Results-based Management (RBM)

- ❖ **Impacts and effects**
- ❖ **Learning cycle**

Tools:

- Stakeholders Analysis;
- Logical Framework Approach (LFA);
- Performance Measurement Framework (PMF)
- Risk Register Analysis;
- Causality Analysis;
- Project Cycle Management (PCM).

Evidence-based Advocacy

Evidence-based Policy Dialogue

Partnership: Results-based Management (RBM)

❖ Performance Measurement Framework:

	Indicators	Verification sources	Collection method	Frequency	Responsible	Risks
Impact						
Effects						
Outputs						
Activities						
Outreach						
Inputs						

Challenges

1. Harmonisation of statistical definitions, classifications, and procedures
2. Total Quality Approach; (elusive populations, statistical rare events)
3. Effective & timely response to data users needs
4. Forging a comprehensive Geographic Information System leading to a Population Register
5. Effective monitoring & measurement of SDGs' indicators

“We wish that everyone should know that the responsibility towards the society is common among us. It’s not something to be borne by a single person.”

– H.H. Sheikh Dr. Sultan Bin Muhammad Al Qasimi,
Member of Supreme Council and Ruler of Sharjah.

Thank You
