Introducing IAOS

New World Order and Official Statistics

IAOS

IAOS is an Acronym for:
International Association of
Official Statistics.

Created and developed as a
specialized section of the
International Statistical Institute
(ISI) in 1985.

Association of physical and legal
persons who have scientific or
professional interest in the field
of official statistics.

Brings together producers and
users of official statistics

The objectives of IAOS are:

New World Order and Official Statistics

- To promote the understanding and advancement of official statistics and related subjects.
- To foster the development of effective and efficient official statistical services particularly in developing countries through international contacts among individuals and organizations, including users of official statistics as well as research institutions.

IAOS Activities

New World Order and Official Statistics

- IAOS constitutes a unique, special case of non-governmental co-operation within the international scene.
- Its field of work ("official statistics") consists of activities, which are normally carried out by "official" bodies belonging to governmental administrations.
- IAOS organizes meetings: seminars, conferences

IAOS Activities

New World Order and Official Statistics

- Collaborates: international, national, regional and other organizations and
- Publications: periodicals, pamphlets, books, information circulars
- Undertakes or participates in cooperative activities, make business transactions and take all other necessary action for the advancement of the objectives of the Association.

IAOS Membership

New World Order and Official Statistics

The IAOS has a universal vocation.

It means that membership is open to persons of all countries of the world since the activity of IAOS is based on universally agreed conception and principles of official statistics.

Hence, IAOS has two Membership categories
(A) individual members;
and
(B) institutional members

IAOS Membership Type
