BEST PRACTICE
Different type of partnerships but with same GOAL!

National  Regional  International
• Minimize discrepancies
• Increase coverage
• Part of global statistics
• Gain new experiences
• Visibility at the national level
• Higher coverage of SDG’s indicators
• Capacity-building of sectoral partners
• Facts-based policy making
• Regional initiative
• Don’t re-invent the wheel
• Visibility on the regional level
• Benefit from experiences in similar contexts
• Utilize regional organizations (AITRS, GCC, OIC, Arab league, ESCWA)
• Shared experiences
• Joint projects
• Regional best practices
• Capacity building for regional NSI’s
• Opportunities for technical cooperation / technical assistant
• Part of global initiative
• Take a part in global debate
• Organizational visibility at the global level
• On hand experience at the international arena
• Networking at the international level
• On hand experience in international debate
• Awareness of official statistics issues at the international level
• Technical missions
• Grants for related projects
